Projects

Progoti – Educational Platform for West Bengal Students [↗](#)

Ongoing

Next.js, Typescript, MongoDB, Mongoose

- Building an educational platform for West Bengal Board students (Classes 10–12) to provide structured, chapter-wise exam preparation resources.
- Developing features such as previous year questions, MCQ, mock tests, and curated exam suggestions to support comprehensive board exam preparation.

ProWeather – Modern Weather Application [↗](#)

Sept 2024 – Dec 2024

React, Tailwind CSS

- Designed and built a full-featured weather application featuring a **modern ui** with smooth interactions and a polished user experience.
- Implemented city search, geolocation support, and customizable dashboard widgets for showing or hiding data.
